I have developed a passion and discipline for software engineering, after graduating it from college. Consistently staying engaged with front-end development, mainly react.js and building small-to-medium size projects to further improve my skills. Have been working in the restaurant business as I have obtained my residence in the US, and now ready for a full-scale carrier in programming and computer science. I have been working in the restaurant business as I have obtained my residence in the US, and now ready for a full-scale carrier in programming and computer science.
